Re: HDRC Case #2018-039 – 150 Crofton St. - *King William Historic District*
Certificate of Appropriateness: Construct front yard handicap ramp

Dear HDRC Commissioners,

The King William Association Architectural Advisory Committee reviewed the project with the applicant. Considering the hardship of the lack of wheelchair access into the residence, we recommend approval with the stipulation that the pattern of the lattice skirting be smaller in scale to differentiate it from the historic structure skirting. We also concur with OHP staff findings that ramp be removed when it is no longer needed for the resident.

We commend the OHP for their support and French & Michigan Architects for their craft in developing a sensitive design solution for the ramp that will serve as a model for future temporary ramps in historic districts.

Best Regards,

Mickey Conrad
Chair, Architectural Advisory Committee

Chris Price
President, KWA Board of Directors
