Re: Case #2016-4438: 815 S St. Mary's St. – *King William District*  
Certificate of Appropriateness – Sign

Dear HDRC Commissioners,

The King William Association Architectural Advisory Committee met to review the project and find the proposed design to be appropriate. If the internal lighting for the proposed signs are going to match the same method/effect used on the "Brigid" sign next door, we recommend approval. We suggest that the applicant resolve the concern of the OHP staff regarding the lighting method.

Best Regards,

Mickey Conrad  
Chair, Architectural Advisory Committee

Harry Shafer  
President, KWA Board of Directors
